

A Pharmacist's Guide to Statin Intolerance

Thursday, May 26, 2016

6:30 pm to 8:30 pm

**Center for Learning and Development
& Webinar
Charlotte NC**

INSTRUCTOR WILL PRESENT REMOTELY

Onsite attendees will view this program from a screen in the AHEC Conference Room.

***Co-sponsored by Charlotte AHEC and
The University of North Carolina Eshelman School of Pharmacy***

Target Audience

Pharmacists, Pharmacy Technicians

Goal

This knowledge-based CPE activity will provide healthcare professionals with a focused review on the basics of statin intolerance, including definition, prevalence and presentation. In addition a review of the exciting literature for various methods to treating patients with statin intolerance will be discussed including alternative dosing of statins, combination therapy and new lipid lowering agents. It will enable the healthcare professional to make more informed, patient-centered decisions and recommendations in patients with the need for lipid lowering therapies.

Pharmacist Course Objectives:

At the completion of this knowledge-based activity, the participant should be able to:

1. Discuss lipid guideline recommendations
2. Describe the incidence and diagnosis of statin intolerance.
3. Identify the possible risk factors for statin intolerance.
4. Discuss evidence for alternate dosing regimens for statins.
5. Discuss efficacy and evidence for non-statin options in treatment.
6. Outline appropriate recommendations for treatment of statin intolerant patients.

Pharmacy Technician Course Objectives:

At the completion of this knowledge-based activity, the participant should be able to:

1. Name three risk factors for statin intolerance.
2. List three non-statin medications
