

HIV Care in 2016: Clinical Update and Vulnerable Populations (Event #48255)

Co-Sponsored by Greensboro AHEC and The University of North Carolina Eshelman School of Pharmacy

Event #: 48255-166165 (Pharmacist Session)

May 2, 2016

ACPE# 0046-9999-16-051-L02-P

(Pharmacist Session)

8:45 a.m. – 4:30 p.m. (Check-in at 8:00 a.m.)

7.0 contact hours

Faculty:

Amanda Corbett, PharmD, UNC Eshelman School of Pharmacy
Joseph Eron, MD, University of North Carolina at Chapel Hill School of Medicine
Cindy Gay, MD, University of North Carolina at Chapel Hill School of Medicine
Michael Mugavero, MD, MHSc, University of Alabama School of Public Health
Susanna Naggie, MD, Duke University
David Wohl, MD, University of North Carolina at Chapel Hill School of Medicine

Program Description:

The purpose of this symposium is to provide health care providers with an update on the care and treatment of HIV infected patients who are now living longer lives. Specifically, topics included will address: recent HIV treatment advances, management of the HIV/Hep C co-infected patients, Hep C guideline update, pre-exposure prophylaxis, opioid replacement, retention models, and emerging issues in HIV. There will be a separate and second track for case managers, nurses, psychologists and substance abuse counselors who care for HIV infected patients.

Pharmacist Learning Objectives:

By the end of this knowledge-based conference, participants should be able to:

- Describe recent changes and advances in treatment of HIV patients.
- Identify the complex medical issues in HIV/Hep C co-infected patients
- Discuss the clinical practice guidelines for the use of pre-exposure prophylaxis.
- Review the use of opiate replacement therapies with HIV patients.
- Discuss pain management strategies for the HIV patient population.
- Review the latest guideline update for the treatment of Hep C.

Agenda:

Agenda:
