### ***Faculty:***

Christopher Hurt, MD, MPH, University of North Carolina at Chapel Hill School of Medicine  
Amanda Corbett, PharmD, The University of North Carolina Eshelman School of Pharmacy

### ***Program Description:***

The HIV Care: Dental and Pharmacological Considerations will provide an educational opportunity for pharmacists and dentists to gain knowledge about the current trends and treatment strategies for HIV patients.

### ***Pharmacist Learning Objectives:***

By the end of this knowledge-based conference, participants should be able to:

- Describe common and/or significant antiretroviral adverse effects.
- Describe recent advances in the treatment of HIV.
- Identify common drug-drug interactions encountered with antiretroviral drugs.
- Identify the approach and management of over the counter and dietary supplement use in patients with HIV.
- Describe the approach to treatment of HIV-HCV co-infection.
